We are excited to announce the next stage in the evolution of Toolway.

WE ARE MOVING TO A NEW LOCATION!

To increase our service levels and product offerings, we have begun the process of moving into our newly constructed state of the art facility. Located only a short distance from Toolway’s current location, our new 120,000 square foot home will allow us to house a larger inventory of new and the existing products and to better service your needs.

This transition will gradually begin towards the middle of November and we will do our best to minimize the impact to our Partners. Please ensure any time sensitive issues are addressed and that you are properly stocked to prevent disruptions to your inventory levels.

We ask for your understanding during this time and appreciate your patience.
