MEASURING WHEEL PROFESSIONAL SAE

The Lufkin® Professional 12 in measuring wheel has a proven design that keeps things simple with one big improvement that gives it best-in-class durability. The new bolstered folding handle joint is designed to survive when other handles break. It's made to open without damage when subjected to severe shock. Large wheel model ideal for uneven terrain or long indoor measurements. Retractable handle adjusts for comfortable measurements; folded length 30 in; extended length 41 in. Suitable for measuring vertical; horizontal or curved surfaces; the large Crescent Lufkin professional SAE measuring wheel displays surface dimensions in feet and in for quick; accurate distance calculations. It features a 12 in wheel with a rubber tire for superb traction on the uneven terrain of jobsites or long indoor expanses. The analog counter dial calibrated to the wheel counts to 10; 000 ft before rolling over to 0.

CRESCENT
Lufkin®

- Large wheel ideal for rough terrain or flat surfaces
- Dial indicator measures up to 9999 ft 11 in without resetting
- Retractable handle adjusts for user comfort
- Measure as fast as you can walk
- Rubber wheel with tough plastic hub

OPEN REEL SURVEYORS TAPE

The Fat-Pat open reel surveyor's tape measure from Toolway is the perfect tool for measuring long distances quickly and efficiently. The PVC coated fiberglass tape is water and crease resistant and the efficient rewind handle makes reeling in the tape a breeze.

- PVC coated fiberglass tape that is water and crease resistant
- Impact resistant plastic case and efficient rewind handle
- Blade has a metal end Hook with claw and metric/imperial graduation markings
- 328-Feet long with a 12mm wide tape
- Eec class iii accuracy

FAT MAX - TAPE MEASURE - MAGNETIC HOOK

Features a Tru-Zero magnetic hook that measures accurate every time; with a three-rivet; corrosion-resistant end hook for accurate measurements. The strong rare earth magnet holds securely onto metal surfaces and has an 11 ft blade stand out for reach and ease of use. The blade is 1-1/4 wide for large; easy to read measurements. The blade itself has Blade Armor coating which protects the blade and reduces breakage and a Mylar blade coating which extends blade life and helps to prevent rust.

- Aluminum blind rivets
- Color coded fastener identification system on both riveter and rivet packaging makes size and product selection a cinch
- Plastic rivet packaging offers a storage solution with the ability to re-close the container for mess-free fastener protection
- Fits the following riveters: MR77C; MR55C5; MR33C

3D LEVELING LASER

TOOLTECH®

- Soft grip and ABS housing offset impact from drop and shock
- IP54 waterproof and dustproof protection
- Works well with bright lighting
- With aid of 2 extra bright perpendicular dots on front vertical laser beam, you can construct a vertical laser line by linking the two dots, even when the lines are invisible under strong light
- Outdoor Mode. Turn on OUTDOOR mode to use with receiver. With receiver, ideal working range is 25m (recommended). Maximum working range: 40m
- Magnetic Wall Mount: Use powerful magnet to stick onto any metallic surface for levelling
- Use without tripod

**WATER PROOF
& DUST PROOF IP54**

ALUMINUM SCREEDS LEVELS

TOOLTECH®

Achieve professional results with the Tooltech Xpert® Level screed. This tool will assist the concrete finisher to prepare the subfloor for the laying of the chosen floor finish by leveling excess wet concrete, to bring the top surface to the perfect grade and smoothness. Built with high-impact aluminum for maximum durability, these screeds are available in 3 lengths, are designed with 2 molded hand holds, 2 levels for accurate readings and 2 plastic end caps. Perfect for professional installers and DIYers.

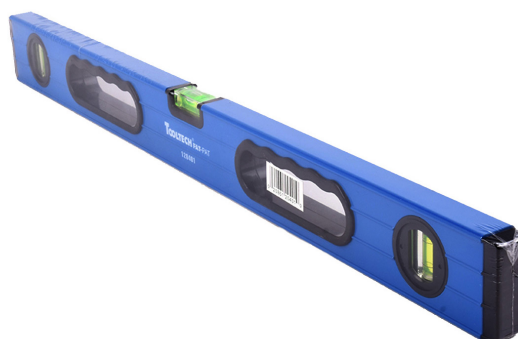

- Helps create a true plane surface when laying concrete.
- Quickly removes excess concrete to bring the top surface to the proper grade.
- Achieve a smooth, level surface on which to lay your preferred floor finish.
- Designed with two molded handles for ease of use along with two high visibility levels and plastic end caps to decrease chances of marring surrounding surfaces.
- Manufactured with high-impact aluminum for added strength and durability.

TORPEDO LEVEL ALUMINUM

Heavy-duty cast aluminum frame makes this level handy for everyday projects, but sturdy for rugged abuse from professional use. This versatile level has three easy-to-read high quality vials. The vials are positioned for top-reading, plumb and 45-degree leveling. Metal frame makes it a popular choice with welders. Hang hole allows for secure easy storage. Proudly made in the USA.

- Heavy-duty cast aluminum frame
- 3 vials for leveling
- Level, Plumb, and 45° vial
- Top-reading level vial
- Grooved working edge fits on pipes and conduit
- Popular choice for welders and pipe fitters
- Hole for hanging or toggling
- Handy 9 in. tool
- Made in the USA

LINE LEVEL - PLASTIC

This versatile level can be used on a line or as a handy pocket level. The small 3 inch level is made from durable plastic construction. Double lines on the plastic vial allows the user to determine a slight pitch when needed. Hooks to hang on a line are configured to hold the level straight. The bottom groove of the level rests easily on curved surfaces such as pipes. A clip is molded into the plastic base on one side to allow to clip to a pocket or other material to keep it handy.

- Durable plastic construction
- Vial can be read from all angles
- Hooks connect level to line
- Bottom groove rests easily on curved surfaces
- Small size is versatile
- Pocket clip
- Made in the USA

STUD FINDER ELECTRONIC

STANLEY

Stanley 77-110 Intelli-Sensor stud finder is a handy tool everyone should have. It easily locates the edges of studs or joists through drywall and other common wall materials. The electronic audio and visual signals are emitted once the edge of the stud is detected. It has an automatic calibration switch for easy turn-on operation and automatic shut-off for longer battery life. It features high-impact; heavy duty ABS case; with non-marring pads for wall protection and a pencil notch for marking stud edges. Pocket size for easy storage. Requires a 9 volt battery (not included)."

- Used for Test & Measurement; Scanners
- Pocket-size stud sensor detects and locates studs and joists up to a 3/4in depth
- LED display and buzzer indicates stud edge
- High-impact; ergonomically-designed ABS case includes pencil notch for pinpoint marking
- Calibrates automatically for surefire accuracy. LED's include low battery warning
- Limited Lifetime Warranty

2PC K-SQUARE SET

Easytool

K-Square measuring device, which can be used for a variety of tasks, including drawing 90-Degree and 45-Degree angles without moving the K Square on external and internal surfaces. Draw a straight line along a surface at various measurements and find the center of a circle with just two strokes. Very compact as it will easily fit in your tool box. Packet contains two squares, one left and one right.

- Can be used for woodwork and metal work
- Very compact to fit in your toolbox
- Draw inside angles on rebated timber
- Mark doors to cut for a mortise lock

CHALK LINE

- Easy Fill & Lock Top features a large, 1/4-turn locking top for quick chalk fill and easy access to reel internals
- 100' Hi-tensile line is stronger for fewer breaks and for use on rough, abrasive surfaces
- 6:1 Gear ratio rewinds line 6X faster than traditional chalk reels
- Open access back panel allows for quick line change and cleaning
- Metal drive gear resists gear failure under heavy load
- Robust steel handle and large ergonomic clutch for increased durability, strength, and torque
- Wide-prong hook for secure anchoring
- Durable aluminum housing provides impact resistance
