TOOLTECH®

CLAW CARPET PULLER CLAMP

- Carpet Puller with Manual Clamping Activation for Pulling Carpet During Installation or Removal
- Made of Solid Die-Cast Aluminum
- Unique design provides firm grip for pulling and removing carpets. Serrated clamps grip carpet firmly allowing for stronger pulls
- Large, comfortable handle for easy operation and pulling
- Efficiently designed tool tightens the carpet as you pull harder, enabling more pressure to be applied when removing floor coverings. A favorite tool for carpet installers

TILE SPACERS & LEVELING

PROXTILE

TILE SPACERS - SMALL

- The 1.5mm (1/16in) Tile Spacers help you install floor or wall tiles with professional-looking results.
- The spacers ensure that grout lines are the same width and that the tiles line up at the corners.
- The flexible PVC construction makes it easy to place and adjust the spacers.
- Easily removed when finished. For aligning marble; granite; porcelain and large format tile.
- For both horizontal and vertical tile installations.
- Easy way to achieve a more professional tiling finish.
- Allows for a 1.5mm (1/16in) grout line.
- Tile spacers work with all types of tile

- Enables one person to more easily carry sheet materials
- Carry plywood and drywall easily
- Handle is angled to keep material away from hands

G05025

SIZE 37 x 16.50 x 7.50cm

CASE	0	6	UPC/BARCODE	84389050252	
------	---	---	-------------	-------------	--

PANEL CARRY

Rubberized Grain Texture TPU Surface
Increased friction of contact to prevent slipping & protect surface of sheet from being damaged

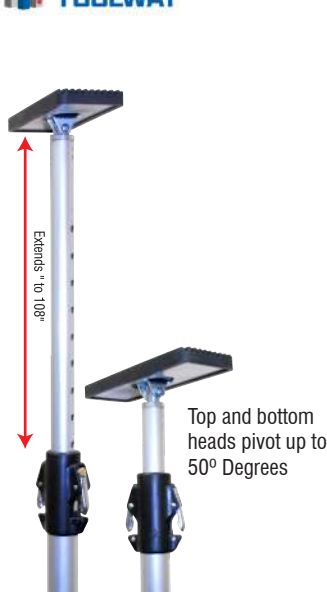

- A unique construction tool that allows one person to lift and carry heavy sheet goods from the top
- Provides less strain and greatly reduces risk of injury to the back, neck, shoulders, arms & hands
- Works by clamping onto the top of the material, creating a sturdy temporary handle for one person operation
- Allows the user to lift and move panels with ease
- Rubber gripping pads mounted on both plates protect the surfaces of the materials from being damaged or marred
- Great for: plywood, sheet metal, drywall/plasterboard, melamine/MDF, rubber mats and more

- SPECIFICATIONS:**
- Max thickness: 3/4"
 - Rated up to 100 lbs

G08367			SIZE 3/4"	
CASE	0	12	UPC/BARCODE	84389083670

DRYWALL ARM SUPPORT

- Support tool simplifies work when repairing panels; boards and drywall.
- Features a squeeze activated lever that allows you to extend and position support in a matter of seconds.
- Top and bottom heads pivot up to 50° degrees to accommodate sloping walls/ceilings

CLINCHER WITH Mallet

- Heavy-duty die-cast aluminum construction
- Comes with a 24oz mallet
- Use to quickly crimp and center outside cornerbead, creating a crisp corner
- Corner Clincher and Mallet is the perfect way to properly seat drywall corner bead. This tool provides consistent, professional results. One strike with the included rubber-head mallet drives the corner bead flush and tight to the corner while crimping the edge to secure it in place. The cast aluminum body, stainless steel head and precision ground teeth make this a superior tool.

SIZE 24oz

CASE 0 2 **UPC/BARCODE** 84389158132

DRYWALL TAPE

- Strong fiberglass mesh reinforcement for taping and patching drywall
- Self-adhesive gridded joint tape for jointing drywall panels.
- No need for a preliminary joint compound coating.
- No air bubbles and does not shrink. Increases joint and corner strength.
- Perfect for repairing holes in drywall panels

CASE	8	20	UPC/BARCODE	84389021184	

TOPSET COVE BASE GOUGE TOOL

- Cleverly designed Topset Cove Base Gouge This handy tool gouges the back of vinyl or rubber topset cove base, and forms a 5/32" wide groove to produce tighter-wrapped outside corners.
- The groove removes excess fullness at the corner that can cause the base to pucker and form gaps from the wall.
 - This eliminates costly preformed corners and improves the appearance.
 - Grooving depth is adjustable using the knurled steel nut.
 - Wood handle is rounded to fit the palm comfortably.
 - The 5/32" wide blade can be sharpened and replaceable.

154127				SIZE 5/32"	
CASE	0	60	UPC/BARCODE	20861541276	

CONTOUR GAUGE

- Integrated ruler
- 10-Inch Contour Gauge is used to easily transfer a mirror image of irregular shapes to tiles for a perfect fit

TOOLTECH®**TEMPORARY FLOOR PROTECTION ROLL**

- To ensure clean removal and reduce the possibility of adhesive residue left behind, this product should not be left on any finished surface for longer than 45 days.
- Easy & Fast Installation – Not tape required.
- Protects your floors and surfaces against any impact damage.
- Manufactured with water resistant materials to protect against liquid spills such as paint, water or light solvents.
- Designed with an anti-skid felt backed underside that lightly adheres to the floor, preventing the mat from slipping.
- High diffusion material is extremely breathable (25g/m²), which allows for optimal drying, and the elimination of any residual moisture left on surface.
- Temporary floor protection is tear-proof and durable and can be reused several times.
- Ideal for stairways

BLACK STOVE PIPE DAMPER (CAST)

- Used to connect woodstove to entrance of chimney
- Easy to close snap-lock system
- Crimped end should be oriented toward the stove to allow for condensation and creosote to flow down inside the pipe
- Used to regulate air by twisting handle to open and close damper.
- Install in black flue pipe.

BLACK STOVE POLISH PASTE

- STOVE POLISH - LIQUID & PASTE (BLACK)
 - Cleans, restores and protects stove finishes
 - Suitable for cast iron or steel
 - Water soluble and virtually odourless, non-flammable & non-toxic
 - Paste contains natural waxes and carbon pigments Apply a thin, even coat with a water-dampened cloth onto a cold surface. Distribute evenly with a cloth or sponge. Let dry 5 to 10 minutes. Buff to a desired shine with a clean cloth.
- NOTE: When lighting the stove for the first time after polishing, ventilate the house, as heated waxes in the polish may emit fumes.

CLEAR KEROSENE TRIPLE FILTERED FUEL

- Recochems clear kerosene is a top quality; triple-filtered fuel that can be burned without the fear of fumes and it is low in Sulphur content
- Clear kerosene is the ideal fuel for catalytic stoves and kerosene heaters as it meets all of the specifications required by the manufacturers
- It burns with little smoke or scent and is ideal for use in wick lanterns;
- Low odor heaters and mechanically adjustable wick feeding oil lamps
- Kerosene is the perfect product to have on hand for emergencies and power outages

**12PK HIGH EFF.PLEATED FILTER ANTI-BAC**

Typical Application
COMMERCIAL BUILDINGS
FOOD AND BEVERAGE
HEALTHCARE
AGRICULTURE & TOBACCO
PHARMACEUTICAL
HOSPITALITY
SCHOOLS AND UNIVERSITIES

Replacement air filters for furnaces, air conditioner, heat pump, or HVAC system

- The PerfectPleat HC filter is designed to consistently increase efficiency throughout the service life of the filter. The PerfectPleat HC filter has approximately 25% more media than our standard capacity filter, and is ideal for applications where pleated filters are currently in use and higher performance is desired. It has an initial G4 rating respectively, but the efficiency increases significantly when dust holding begins. PerfectPleat HC filters have distinctive self-supporting characteristics that allow a pleating pattern, which promotes airflow and maximises dust holding capacity (DHC).
- Low initial resistance
- Mechanical efficiency - does not rely on electret charge technology
- Self-support DuraFlex media made from virgin fiber; no wire support needed
- Consistent media with controlled fiber size and blend
- Environmentally friendly - no metal, fully incinerable

FILTER - PERMANENT

Replacement air filters for furnaces, air conditioner, heat pump, or HVAC system

- Washable
- Cut to any size
- Lasts for years
- Holds more dust than filters
- Permanent Furnace Filter This unique high efficiency filtration product is a replacement for traditional fiberglass disposable filters. Consists of thousands of interconnected; spun; natural fibres that effectively trap and hold large amounts of dust and dirt particles. As air passes over the fibres; an electrostatic charge is created; thus increasing it's filtering efficiency. Washable and reusable. Can be cut to fit most popular sizes. Lasts for years (with proper care). Stops and hold more than 250% more dust particles than traditional fiberglass disposable filters."

ALUMINUM DRYER DUCT

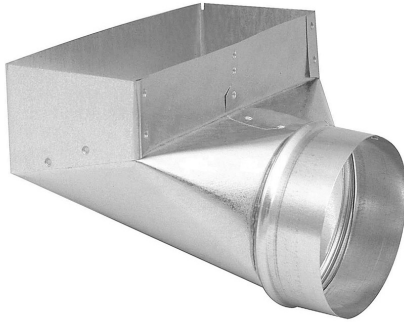

- The ProFlex™ dryer duct is ideal for both gas and electric clothes dryer applications. This duct is UL2158A listed and marked for safe dryer venting and is constructed of heavy duty, fire resistant, 4 ply aluminum foil laminate that encapsulates a high density, corrosion resistant wire helix. This forms an air tight and easy to use air duct. This duct will not support combustion. Note: Per UL2158A only ducts 8' or less can be UL marked

EXHAUST CAP

Dundas Jafine ProMax™ exhaust caps feature a robust; wide mouth cap for optimum airflow and snug fit backdraft damper that helps to prevent cold air; snow or rain from entering the home. The damper has been redesigned for superior noise reduction. Additional features include a removable pest screen that helps to keep pests out and allows for easy cleaning of the duct. All ProMax™ products have a UV resistant coating to prevent the cap from discoloring and are paintable to match the exterior of your home. These caps can be used in conjunction with brick; concrete or siding and are ideal for bathroom fan venting; dryer venting and kitchen range hood venting. The molded caulk edge on the cap helps to maintain a clean caulking application.

GAP SEALING FOAM BACKER ROD

- Multi-use: may be used on your windows, doors and any other area with large gaps
- Made out of durable and compressible material
- Moisture proof
- Seals out dust, air, rain, and wind-driven snow
- Ideal as a filler in expansion/compression joints subject to movement from thermal expansion and contraction
- Highly resistant to dirt and pests
- Conforms to contours easily and fills gaps
- Easy to Install
- Simply squeeze the backer rod into a large gap
- Cut the excess off with scissors
- If you'd like extra protection and improved performance, fill the gap with sealant or caulking and then apply the foam backer rod. Fill large gaps in your windows and doors with our Foam Backer Rod. When the gap may be too large for regular foam tapes, the Foam Backer Rod is a perfect solution to fill cracks, holes and large gaps in your windows and doors. The product may be used in many areas of the house to fill in large gaps as it will remove drafts, reduce heating and cooling loss, save on energy costs, and improve noise reduction. Use it with sealant or caulking for a tight seal that will last for many years

QUICK CURE PRE-MIXED REPAIR MORTAR

- Repair and fill damaged concrete structures.
- For smoothing, patching and filling cracks, holes, voids and depressions in concrete.
- Fast Drying – 20 minutes after application time.
- Ready to use Premixed Mortar – Only add potable water.
- No corrosion of metal - as it doesn't contain chloride.
- Workload 0.3m² (2mm thickness) with 1kg bag.
- Dries Gray.
- Size: 1kg (2.2 lb).
- ProLine POWERSEAL™ Quick Cure Repair Mortar is a high performance, pre-mixed cement that can be used in many diverse concrete repair applications. Suitable anywhere a concrete is de-laminated, weak and/or damaged. This cementitious material is activated by simply adding clean water. Its blend of silica sand and special filler makes it extremely strong and fast setting. It will not rust any metal contained in concrete structures as there is no chloride added to the mixture. This mortar will dry gray and set within 20 minutes.
