OUTDOOR EXTENSION CORD

MEDIUM DUTY

FlexiCord

**ULTRA-FLEX EXTENSIONS BY TOOLWAY TWICE AS DURABLE AS OTHER POWER CORDS.
RESISTS MOISTURE AND WILL NOT CRACK IN ARCTIC COLD OR MELT IN DESERT HEAT.**

Flexible outdoor extension cords by FlexiCord are perfect for all home owners and DIYers. These medium duty cords are designed with a durable PVC jacket; allowing them to remain flexible in temperatures ranging from negative 40-Degrees C to plus 60-Degrees C. They are rated to 125V; are equipped with LED power indicator ends which allows you to see if there is power going through them and are designed to lock which prevents cords from accidentally pulling apart. These cords are also water resistant.

- LED power indicator with locking connector ends.
- Durable PVC jacket protects the copper wire from potential damage.
- Medium duty; suitable for most residential; work; and job sites.

3-WAY LED/CFL PUSH ON/OFF ROTARY DIMMER

Trimatron® lighting controls are traditional rotary-style dimmers available in single-pole (one location) and 3-way (multi-location) Push-ON/Push-OFF versions for LED, CFL and incandescent lighting and quiet fan speed control. With a compact, easy-to-install design, Trimatron dimmers provide an easy fit even in shallow wallboxes. The classic style of Trimatron dimmers is ideal for enhancing the décor of traditional homes while simultaneously upgrading functionality to support today's latest bulb technology.

HIGH CRI LED WORKLIGHT

LightWay

Lightway portable work lights by Toolway are manufactured with the latest in LED technology. These 10 watt energy efficient units are designed for optimum illumination as the cob LEDs have a high cri (color rendering index) that emulate daylight. Perfect for indoor or outdoor use, these lights are water resistant and rugged die cast alloy aluminum and nylon bodies allow them to better resist impacts. Their slim and elegant design not only makes them easy to transport and store, but also perfect for small work areas. Best of all because they are powered by Batteries, you can take these work lights anywhere with limited or no access to electricity.

- Energy efficient 10 watt cree LED technology with 2 modes:
800 lumens and 300 lumens Running on 3 "D" Batteries
- Lens replaced traditional reflector to get better light Spot
- Rugged Nylon body allows product to withstand a 3 meter drop
- Stand adjusts from -10-Degree to 140-Degree for Variable Beam direction
- Lasts 15 hours at brightest setting (800 lumens) and has a throw of 45 meters

LED 360-DEGREE WORKLIGHT

LightWay

Effectively illuminate work areas, basements, attics or construction sites with the LightWay portable LED work light. This 360-degree light is super-bright and casts a wide beam to ensure total light coverage, yet it is safe to handle as it remains cool to the touch. Producing 5,000K and 12,000 lumens, it is designed to be placed directly on the ground on its metal cage or used mounted on LightWay's Stand Bracket (item #140483 SOLD SEPARATELY), when increased top light is required. An incorporated handle makes carrying and transporting the unit a breeze, or to hang it when required. Light comes with a 3-meter cord for convenient placement and a built-in electrical outlet for general use or to string multiple units together when illuminating large areas.

LED PORTABLE WORKLIGHT WITH BLUE TOOTH

LightWay

This LED portable Bluetooth work light is the perfect 2 in 1 option for any work environment. Its Two-Stage dual powerful LED work lights produce up to 6300 lumens of brightness, ensuring you have the right amount of light for any working condition. Best of all its built in Bluetooth enabled speaker allows you to cast your favorite music from any smartphone or tablet. Perfect for any professional trades-person or DIYer, this unit allows for the option of having one Light on or both illuminated. Features a 10-foot cord for easy reach and an integrated 3 prong outlet to help power additional tools. It has a well constructed design that allows the user to customize its use to any angle up to 290° and folds up like a suitcase for easy transport and storage. Compatible with Lightway tripod #140489 (sold separately)

- Folds up into a suitcase for ease of use, transport and storage
- Case opens exposing dual LED lights that can be adjusted to any angle up to 290° with a color temperature of 4,000K and life expectancy of 30,000 hours
- Easy to use Bluetooth speaker integrated into the work light
- On/off switch provides 2 lighting options to control level of brightness, comes with 10ft long cord and extra outlet

SMD LED WORKLIGHT DUAL HEAD WITH TRIPOD & STAND**LightWay**

The Lightway dual head work light comes with two exceptionally bright SMD LED lamps that can be placed on the ground or on the accompanying tripod. SMD spotlights offer higher lumen output with lower energy consumption, making them more powerful and energy efficient than older first-generation LEDs. These lights are rated at 32-watts and produce 6000 lumens, allowing you to illuminate even the darkest working environments. Large and easy to turn knobs allow for independent angle adjustments along with quick unit separation from the base. The tripod's wide-stance footing design allows for stable and secure placement when positioned on a variety of surfaces. Tripod extends up to 33 1/2 inches giving it an overall height of 45 inches including the lights. The work light comes with a 5-foot thermoplastic cord (SJTW-18/3), that is rated for 300V and approved for outdoor usage. Perfect for painters, general contractors, or homeowners.

- High-powered SMD LED technology
- Includes two 32-watt lights
- Emits a combined 6000-lumens
- Multi-angle adjustable dual heads
- Large easy to turn adjusting knobs
- Each light can be angled independently
- Lights can be used mounted on included tripod or separated to be used on their own
- Adjustable telescoping tripod
- 5-foot SJTW-18/3 cord
- Easy fold-up design for easy transport and storage
- Kelvin level: 5000k

SMD LED WORKLIGHT WITH H-STAND

LightWay

The Lightway integrated LED work light uses SMD technology to produce an exceptionally bright high-powered beam. SMD spotlights offer higher lumen output with lower energy consumption, making them more powerful and energy efficient than older first-generation LEDs. This small portable light uses 68-watts to produce 7000 lumens allowing you to illuminate even the darkest working environments. The included "H"-stand with rubber feet quickly attaches and provides stable and secure placement when positioned on a variety of surfaces. The work light comes with a 5-foot thermoplastic cord (SJTW-18/3), that is rated for 300V and approved for outdoor usage. Perfect for painters, general contractors, or homeowners.

- High-powered SMD LED technology
- Heavy duty bright light with very low power consumption
- Emits 7000-lumens • Large easy to turn adjusting knobs
- Includes wide "H"-stand
- 50,000-hour lifespan
- 5-foot SJTW-18/3 cord
- Soft foam carrying handle
- Incorporated On/Off switch
- Kelvin level: 5000K

ROOT FARM™ LED BROAD SPECTRUM GROW LIGHT & STAND

Let the light shine brightly on all your indoor seeds, seedlings, and plants with the Root Farm™ All-Purpose LED Grow Light. Lets you garden and grow houseplants indoors, all year long. Delivers 25,000 hours of energy-saving, bright, high-wattage LED light – with no harsh purple glow. Featuring a three-band spectrum, this grow light supports strong, healthy plant growth. Lets you grow plants from small to tall, thanks to two adjustable legs that move the light panel up or down.

LED MOTION SENSOR LIGHT

The LED Wireless Motion Sensor Light uses new LED technology to provide safe, bright light anywhere you need it--without the need for wires. With its 6 bright LEDs, this light illuminates a large area for 1 year of normal use without having to change batteries. A sophisticated 180 degree motion sensor, coupled with a photo sensor allows for activation only when it is dark and motion is detected

- Only activates when dark and motion is detected.
- 180 degree motion sensor.
- Light anywhere you need it, without the need for wires.
- 1 year battery life under normal use.

OUTDOOR LED SOLAR SECURITY FLOODLIGHT WITH PIR SENSOR

LightWay

Great for residential and commercial applications, this light allows homeowners and property managers to quickly install a motion detecting floodlight in any location without the need to wire into a power source. The unit has two settings to choose from, dusk until dawn sensor when used as security lighting or constant lighting mode when you require the light to remain on. The built-in solar panels recharge the lithium-ion battery giving the unit a lifespan of 35,000 hours. The 30 LEDs provides a total of 500 lumens, making it incredibly bright and perfect for garages, alongside pathways, backyards, campsites or above entranceways.

- No external power source required
- Two settings to choose from, sensor (dusk until dawn) and constant mode
- Illumination for up to 5 straight hours on a single charge
- Sturdy aluminum bracket for mounting that adjusts 360 degrees while the light panel adjusts 135 degrees
- 5 mounting ports for convenient placement
- Mounting hardware included
- Large solar panel
- IP65 water resistance rating, making the product durable and suitable for all outdoor conditions
- Stand-able, Portable, Hang-able, Adjustable and Foldable
- CCT 6000K
- Replaceable Battery: 3.7V/3000mA

OUTDOOR LED SOLAR SECURITY FLOODLIGHT WITH DUAL PIR SENSORS

LightWay

Great for residential and commercial applications, this solar power light allows homeowners and property managers to quickly install a motion detecting floodlight in any location, without the need to wire into a power source. The unit has three settings to choose from, dusk until dawn and sensor when used as security lighting or constant lighting mode when you require the light to remain on. The built-in solar panel recharges the lithium-ion battery helping you save money on your energy bills. The unit has a lifespan of 35,000 hours and the 60 LEDs provide a total of 1080 lumens, making it incredibly bright. Its IP65 water resistance rating makes it perfect for all outdoor conditions. The light can be installed on a wall, pole, fence or sat on a horizontal surface like a picnic table. Its ABS, anti-UV construction makes the unit extremely durable. Use over garages, alongside pathways, backyards, campsites or above entranceways.

- Easy to install. No external power source required as light is powered by solar energy.
Three working modes to choose from, sensor, dusk until dawn and constant mode with integrated auto on/off
- Illumination for up to 5 straight hours on a single charge when placed in bright, sunny areas. Total lifespan of the unit is 35,000 hours.
The 10-watt LED pad and 60 LED cells provide a total of 1080 lumens making the light extremely bright
- Multi-Functional. Manufactured with sturdy aluminum bracket for mounting that adjusts 360 degrees while the light panel adjusts 135 degrees.
Incorporated mounting ports for convenient placement. Mounting hardware included
- Designed with a large solar panel. Unit has a IP65 water resistance rating, making the product durable and suitable for all outdoor conditions
- Unit has Dual PIR Sensor 8M is Stand-able, Portable, Hang-able, Adjustable and Foldable. CCT 6000K. Includes Replaceable Battery: 3.7V/7200mAh

-  60 LED
-  1080 LUMENS

LED SOLAR MULTIFUNCTION MOTION LIGHT WITH 7-IN-1 MOUNT

This innovative patented light can be used as a permanent wall mount solar light, split wall mount, hanging, portable solar flashlight, or even a solar garden light. It has one 8 Watt LED powered lamp with three adjustable angles, the solar panel is also adjustable 180 degrees, and the entire unit can be adjustable 360 degrees. The perfect solar light for any application! Widely used for garden, pathway, wall light, camping light, work light, parking lot etc.

7 Mount Options: 1. Mounted on the wall. 2. Mount the lights inside and the separate solar panel outside. 3. Portable solar flashlight which can easily be carried to any place. 4. Can be mounted as a solar outdoor emergency light with the attached magnet. 5. Can be mounted on any flat surface with the adhesive backing tape. 6. Can be mounted using the nail keyholes on back. 7. Comes with portable stand for temporary work light or garden light.

- Solar panel is 180° vertically and 360° horizontally adjustable, tool-free to set for best solar charging in different locations.
- 3M long connection cable • Lighting directions is 180° adjustable, easy to set desired lighting direction or area.
- Mono solar panel with tempered glass, high efficiency 21%, fast solar charging, 20years lifespan.
- Big capacity battery with over-charge and over-discharge protection, safe and durable.
- Digital PIR sensor detective, 120° detective, high sensitivity.
- Ultra bright 950LM by optical design, anti-glare.
- Two optional work modes for different applications and weather.
- Power/Lumen 8W/950lm.
- LED SMD 2835*64pc.
- Li-Ion battery – 400mAh/3.7V.
- Solar Panel – Mono Crystalline silicone (6W, DC6.5V).
- Charging Time – 4-5 Hours strong sunshine for full charge.
- Beam Angle 120 deg.

CLIP-ON MOTION SENSOR LED SOLAR LIGHT

The Solar clip light is a new design that solves the pain of difficult installation or not wanting to puncture the wall. This design makes it possible that installation can be done with only one hand.

- Installation is super easy; just clip it on like a clamp; no tools required
- 3 working modes: 1: PIR and Light sensor works full brightness (350lm) for 15S+dim light (10lm) | 2: PIR and Light sensor works full brightness (350lm) for 15S then turn off | 3: Light sensor works ; dim light (6-8hours) or off
- 3 Watt
- Lumines: 350
- 45pc LED 2835SMD
- 3.7V/1500mAh Battery
- 1.3W/5.5V Poly Silicon Solar Panel
- Color Temp: 6000K-7000K
- IP44
- Charging time 6-8 hours
- Working time up to 8-12 hours
- Multi-purpose use camp light; security light; table light; emergency light
- Can be mounted or clipped on a fence or anywhere in the garden
- Light and easy to carry

WIRELESS MOTION SENSOR WITH ALARM

The Ideal Security SK602 series wireless alert uses a motion sensor to detect motion and sends a wireless signal to the linked receiver. Once a signal is received by the receiver, the unit will chime, alarm (100dB) or just flash lights.

- Starter package includes 1 PIR motion sensor unit and 1 receiver / alarm unit
- Add additional sensors: Up to 50 sensors can be linked to the receiver(SK602-1G(Grey))
- 4 alert settings: Loud alarm, Loud chime, Soft chime, Lights only
- Communication range of up to 390 feet between motion sensor and alarm unit.
Senses motion over a 45 degree arc, up to 26 feet away
- Low battery indicator. Batteries are not included: 3 C batteries for the receiver and 3 AAA batteries for the sensor
- Motion sensor unit can be used outdoors
- Charcoal grey models have blue LEDs, white models have red LEDs
- Optional power supply available for the receiver (SK600CHG1)

FLOOD, WATER & OVERFLOW ALARM

Water damage is the most common cause of insurance claim in North America, and can cost tens of thousands of dollars to repair. This easy-to-use water detector can give you peace of mind by alerting you to leaks before damage is caused. Avoid or minimize damage from faulty appliances, burst pipes, sewer backups, leaky roofs, heavy rainfall, overland flooding, and more.

- Built-in 105dB alarm
- Alarm and musical chime options
- 6 foot (2 meter) sensor wire
- Alarm continues to sound until sensor is dried or battery discharges
- Ideal for use near sump pumps, appliances, bathrooms, kitchens, basements, or anywhere else flooding is likely to occur
- Quick and easy to install
- Requires 9V battery (not included)

DOOR & WINDOW CONTACT ALARM

Ideal Security's Door and Window Contact Alarm detects entry and warns when a door or window has been opened. Perfect for restricted areas where children should not go. It is easy to install using the included double-sided tape. It comes with a 12V (A23(CN23A)) battery and a warning sticker. Ideal Security has been supplying quality hardware to door manufacturers for 65 years. Please explore our other door and window hardware products for your home.

- Instant Alarm: This door contact sensor alarm detects entry and alerts whenever a door or window opens; ideal for restricted areas where children should not go; when a window or door is opened, the alarm will sound for 30 seconds and then reset
- Stand-Alone Unit: Each sensor of the window contact alarm features a built-in alarm; sounds when the contact is broken
- Easy to Install: Safety alarm can be conveniently installed with the included double-sided tape; once installed, turn the switch on, and it's ready to detect any entry; mounts on left or right side
- Set Includes: A contact door alarm, a 12V (A23(CN23A)) battery, double sided tape, and a warning sticker

HOUSEHOLD FIRE EXTINGUISHERS

Suitable for use on Class A (trash, wood & paper), Class B (liquids & gases) and Class C fires (energized electrical equipment). The 466296 Home Series Multipurpose red fire extinguisher comes equipped with a tough metal handle and is fitted with a pressure gauge that provides at-a-glance status..

- ULC-rated 1-A:10-B:C
- Easy-to-read gauge tells you fire extinguisher is charged and ready for use
- Clear instruction label using graphics to show steps required to operate extinguisher
- Easy-to-pull safety pin
- Tough metal handle
- 10-year limited warranty.

DUAL SENSOR BATTERY OPERATED SMOKE ALARM

- Dual Sensor Technology
- Ionization Sensor – may detect invisible fire particles (associated with flaming fires) sooner than photoelectric alarms.
- Photoelectric Sensor – may detect visible particles (associated with smoldering fires) sooner than ionization alarms.
- 9V Battery Operated – No wiring required. Provides continuous protection even during power outages.
- Hush® Button – Temporarily silences nuisance alarms for approximately 10 minutes (smoke must be present before Hush® is activated).
- Test Button – Simultaneously tests the unit's electronics and verifies alarm operation.
- Tamper Resistant – Deters from tampering or theft.

120V AC TALKING SMOKE & CARBON MONOXIDE ALARM WITH FRONT-LOAD AA BATTERY BACKUP

- Combined Smoke & Carbon Monoxide Alarm – A single unit can be installed where previously, two were needed.
- Reduces installation time and protects against both fire and carbon monoxide dangers.
- Intelligent Sensor Technology – Combines the detection capabilities of an ionization smoke sensor with that of an electrochemical carbon monoxide sensor. When either sensor notices a potential hazard, the alarm will adjust its smoke sensitivity to differentiate between a real hazard and a false one.
- Voice Warning – Announces the hazard type detected (in English and French). Alarm announces "FIRE!" when a smoke or fire hazard is detected and announces "WARNING! CARBON MONOXIDE!" when a CO hazard is detected. Also announces "LOW BATTERY" when it is time to replace the batteries.
- 120V Interconnectable – Will interconnect with up to 24 other devices (18 of which can be initiating), including smoke alarms (limit of 12), CO and heat alarms.
- AA Front-Loading Battery Backup – Change batteries without the need to remove the unit from the ceiling, providing continuous protection in the case of a power outage.
- Tamper Resistant – Unit will lock to mounting bracket to deter theft or tampering.
- End of Life Notification – Ten (10) years after unit is first powered, this alarm will beep two times every 30 seconds to indicate it is time to replace the alarm.
- Alarm Memory: The green LED will flash every second during alarm. When the alarm condition goes away, the originating alarm unit will flash the green LED every 16 seconds until the Test/Reset button is pressed, thus resetting the alarm.

- Safety Light – Illuminates when alarm sounds to guide your way to safety
- Hush® Button – Temporarily silences nuisance alarms.
- Battery Operated (includes two 9V batteries) – Protects even during power outages.
- Test Button – Simultaneously tests the unit's electronic circuitry, horn, and battery function.
- Ionization Technology – may detect invisible fire particles (associated with flaming fires) sooner than photoelectric alarms.
- Tamper Resist Feature – Tamper resist locking pin deters from tampering or theft.

LED STROBE LIGHT FOR SMOKE DETECTORS INTERCONNECTABLE 120V

- The Kidde Strobe light benefits the hearing impaired, allowing a visual alert of a danger.
- This unit also includes a tamper resist pin that helps to deter thief and tampering.
- The Kidde SLED177ICA, used in conjunction with a smoke, heat or carbon monoxide alarm, provides a bright signal to warn of a smoke, heat or CO hazard.

AC PLUG-IN CARBON MONOXIDE ALARM

- Test / Reset Button - Tests the unit for proper operation. Resets the carbon monoxide alarm.
- Tamper Resist Feature - If activated, unit goes into constant alarm mode if it has been unplugged or has come loose from the outlet.
- Low Battery Hush® - Silences low battery chirp warning for up to twelve hours in order to maintain protection without having to replace the batteries at an inconvenient time.
- AC Plug-in Operated - Easy to install – just plug into an AC wall outlet.
- AA Battery Backup - Provides continuous protection in case of a power failure.
- CSA Listed
- 10-Year Warranty

BATTERY OPERATED PHOTOELECTRIC SMOKE ALARM WITH HUSH®

- Photoelectric Technology – may detect visible particles (associated with smoldering fires) sooner than ionization alarms
- 9V Battery Operated – No wiring required. Provides continuous protection even during power outages. Battery included.
- Easy-to-see, red LED flashes every 30 to 40 seconds to indicate that power is flowing to the unit and a chirp will sound if the battery is running low.
- Hush Button – Temporarily silences nuisance alarms for approximately 8 minutes (smoke must be present before Hush is activated).
- Meets the requirements of CAN/ULC-S531

SMOKE & CARBON MONOXIDE ALARM TALKING

- Combined Smoke & Carbon Monoxide Alarm – A single unit can be installed where previously, two were needed.
- Voice Warning – Announces the hazard type detected (in English and French).
- Photoelectric Technology – May detect visible fire particles (associated with slow smoldering fires) sooner than ionization alarms
- 120V Interconnectable – Will interconnect with up to 24 other devices.
- 9V Front-Loading Battery Backup – Change the battery without removing the unit from the ceiling.
- Multi-function One Button Design includes:
 - Test Feature – Simultaneously tests the unit's electronics and verifies proper operation.
 - Hush® Feature – Temporarily silences nuisance alarms for approximately 10 minutes
 - Reset Feature – Resets the carbon monoxide alarm
- Alarm/Peak Level Memory – If alarm has detected a CO level of 100ppm or higher since it was last reset, the green LED will blink once every 16 seconds and a voice alarm will announce "Caution! Carbon Monoxide Previously Detected" if the Test/Reset button is pressed.
- Tamper Resistant – Deters removal of the unit from the wall or ceiling.

SMOKE ALARM WITH VOICE

- Hardwire Interconnect – Join multiple alarms together, so when one alarm sounds they all sound.
- 120V Direct Wire with 10-Year Sealed-in Lithium Battery Backup – No battery replacement required over the 10 year life of the alarm.
- Photoelectric Sensor – Smoke alarm contains advanced photoelectric sensor that may detect visible particles (associated with smoldering fires) sooner than ionization alarms.
- Voice Notifications – Unit announces "Fire!" and other alerts such as "Replace Alarm," which helps the user better understand the alarm status. Easily switch your language preference (English/French) at any time by pressing the Test button twice on ALL devices you wish to connect.
- Alarm Locate Feature – Quickly find initiating alarm by silencing other alarms in the network.
- Multi-function One Button Design includes:
- Hush® Feature – Temporarily silences nuisance alarms for up to 10 minutes (smoke must be present before Hush® is activated). End of Unit Life chirps can also be silenced.
- Test Feature – Simultaneously tests the unit's electronics and verifies alarm operation

BUILDING WIRE NMD90

NMD90 cables may be used for both exposed work in dry locations or concealed work in dry or damp locations. The maximum allowable conductor temperature is 90 deg C. The minimum recommended installation temperature is -25 deg C for two-conductor cables and -10 deg C for three-conductor cables (with suitable handling procedures). Material should be properly stored above 0 deg C for 24 hr prior to installation. The maximum voltage rating for all intended applications is 300V.

CARTRIDGE FUSES

Mersen NRN (250V) and NRS (600V) fuses are standard non-time delay fuses, with a 10kA short circuit rating. 250 Volt NRN 15 amp through 60 amp fuses are certified as Type "P" fuses, satisfying the Canadian Electrical Code for low melting-point non-time delay fuses. Also qualifying for Type "P" are OTN15 through OTN60, which are Class K-5 fuses with a 50kA short circuit rating (found in the OT/OTS section of this catalog).

PLUG FUSES

Mersen Plug Fuses are for industrial and residential applications. Standard non-time delay fuses are for receptacle and lighting circuits. Standard time delay fuses are for motor loads. For Canadian requirements, a type "P" fuse is used for non-motor loads and type "D" fuses are used for electric heating and cycling loads circuits. Both fuses have low melting-point temperature elements. Low-Temp time delay plug fuses have thermal sensitivity are also for cycling loads and motor circuits. Type "S" plug fuses are time delay and tamper-resistant.

WIRE FISH STEEL TAPE

TOOLTECH®

The fish tape or electrician's snake is a tool used to route new wiring through walls and electrical conduit. Made of a narrow band of spring steel, by careful manipulation, the tape can be guided through confined spaces such as wall cavities or conduits.

WIRE FISH FIBERGLASS ROD

TOOLTECH®

- 1/4" diameter rods made of maximum grain fiberglass provides added rigidity and splinter resistance when multiple sections are connected
- Two different threaded tips available to accommodate various bundles of wire or cable
- Warnings: Use approved eye protection when using this product.
- Although the fiberglass fish rod itself is non-metallic, its metallic tip and leader are conductive and could be grounded against conduit.
