TOOLTECH®
SOLDERING GUN

- The Tooltech 100W soldering gun
- Pistol grip design
- Ready to use in 15 seconds
- High efficiency tin-plated copper tip
- 2-wire cord
- Kit contains Soldering gun, Replacement tip, Soldering wire and Solder Paste
- Packed in a clam shell
- cUL listed

Temp. Range
900°F (482.22°C)

Weller®
SOLDERING GUN KIT

- Dual-heat wattage gun
- Pistol grip design; ready to use in 6 sec
- Fingertip trigger selects high (1st trigger position) or low output (2nd trigger position)
- Heavy-gauge; high efficiency; tin-plated copper tip
- Twin lights illuminate work
- Soldering gun kits 8 piece heavy-duty professional watts 260/200
- High output with 2-position trigger selection of dual heats.
- Heavy-gauge; high efficiency; tin-plated copper tip comes up to temperature in 6 seconds.
- Balanced pistol-grip design with twin lights to illuminate work.
- Includes No.D550 soldering gun; 1 solder ring tip; 1 sealing tip; 1 cutting tip; flux brush; soldering aid tool; coil of lead-free rosin core solder;
- Sturdy plastic carrying case and soldering hints booklet.
- 120 Volts; 260/200 watts; 50/60 Hz;
- UL Listed.

SOLDERING GUN

Weller®

- Rapidly heats up in 6 seconds
- Two trigger positions control power at high (140 W) to medium (100 W) heat
- 3 built-in LEDs provide bright spotlight and eliminate tip shadow
- Ergonomic; non-slip pistol grip ensures comfort and stability
- Hex wrench quickly changes out tips and conveniently stores in handle
- Rounded grip foot supports gun during soldering
- Ball guard prevents twisting and prolongs life of cord
- Heats to up to 900 deg F The Weller 9400PKS universal soldering gun kit with LED lighting rapidly heats up in 6 seconds and reaches up to 900 deg F in temperature. Two trigger positions control the gun's power at high (140 W) to medium (100 W) heat. Three built-in LEDs provide a bright spotlight and eliminate tip shadow. The ergonomic; non-slip pistol grip ensures comfort and stability for users. A hex wrench quickly changes out tips and conveniently stores in the gun's handle. The rounded grip foot supports the gun during soldering; while the ball guard prevents twisting and prolongs the life of the cord."

SOLDER WIRE

SOLDER WIRE

- Smooth; bright solder joints
- Bridge-free soldering
- Low cost - does not contain silver
- Reduced copper erosion from holes; pads and tacks
- Dross rate similar to tin-lead alloys
- SN100C is a lead-free solder alloy; developed by Nihon Superior; that is comprised of tin-copper-nickel + germanium. The properties of SN100C offer an advantage in terms of performance and cost compared to other lead-free alloys. From automotive and aerospace to consumer and telecom; SN100C has a proven history of providing a reliable; cost-effective lead-free alloy solution."

WELDING & CUTTING KIT

- Brass welding torch
- Oxygen and acetylene regulator and check Valve
- Cutting attachment and welding and cutting tips
- Heavy duty molded storage case
- 1/4-Inch x 15-Feet twin hose with Connectors
- The matrix welding and cutting kit from Toolway is designed with all brass fittings including a brass welding torch. Within the heavy duty molded storage case, you will find oxygen and acetylene regulators and check valves, welding and cutting tips as well as a 1/4-Inch by 15-Feet twin hose with connectors. Also included are Goggles, a spark lighter and tip cleaner.

715029 CASE 50 200 UPC/BARCODE 621457150294

**TOOLTECH****PENCIL TORCH**

- Powered by butane gas simply refill from standard lighter refills
- Can be used to melt solder / silver / copper / tin and aluminium.
- Simple to use and will hold enough gas to safely do the job.
- Comes complete with instructions for simple and easy application.
- Provides an accurate and easy to use flame.

**UltraFlame****2 PC PROPANE TORCH KIT, WITH ELECTRONIC TRIGGER TORCH**

- Electric trigger torch kit
- Compact and lightweight design
- Offers a 360° range for multi-position use
- Self-igniting torch for quick lighting; no matches needed
- Clean burning
- Medical grade propane
- Can be used for plumbing projects, soldering and thawing frozen pipes
- Can also be used for culinary applications
- Great for quickly removing paint, caulking and putty
- Provides approximately 5 hours of burn time

PRO TORCH MODERN SUBSTITUTE FOR
MAPP CYLINDER

PROTORCH

- High quality MAPP gas substitute with propylene, propane and dimethyl mixtures.
- Ideal for professional or heavy welding as well as cutting iron and steel.
- 15% more fuel
- 14% higher BTU heating output
- Burns 30% longer

Cylinder
14.1 OZ / 453.6 GFuel:
MAPP GAS / PROPANE

80004941

MFR# UF-4941

CASE 0 12 UPC/BARCODE 622256049413

HAZ MAPP-GAS CYLINDER

Mag-Torch

- Propylene gas burns hotter than propane.
- Use only with torches and appliances specifying "for use with propylene"
- Slim, lightweight cylinder is easy to grip and maneuver

Cylinder
14.1 OZ / 400 GFuel:
MAPP GAS / PROPANE

80043581

CASE 12 12 UPC/BARCODE 14045435819

OXYGEN CYLINDER

PROTORCH

- High quality oxygen with purity > 95% (v/v);
- For use with MAPP gas substitute or propylene to produce higher temperature flame and higher heat output;
- Ideal for professional welding and metal cutting.

Fuel:
OXYGENCylinder
1.4 OZ / 40 G

80004943

MFR# UF-4943

CASE 0 12 UPC/BARCODE 622256049437

OXYGEN CYLINDER

Mag-Torch

- To be used with Max Power Propylene gas for higher temperature combustion.
- Designed for use with oxygen-compatible torches
- Ideal for:
- Brazing / Welding
- Medium to heavy soldering
- Cutting thin sheet metal
- Surface hardening of metal
- Flame temperature in air is dependent on fuel gas

Fuel:
OXYGENCylinder
1.4 OZ / 40 G

CASE 12 12 UPC/BARCODE 57197358209

PROPANE CYLINDER

PROTORCH

- High quality propane with purity >95% (m/m); Net weight 14.1oz; Ideal for professional welding and metal cutting

Fuel:
PROPANECylinder
14.1 OZ / 400 G

80004944

CASE 0 12 UPC/BARCODE 622256049444

HAZ PROPANE CYLINDER

Mag-Torch

FEATURE:

- Ideal for general soldering
- 3,600° flame air temperature
- CGA600 style valve
- Non-refillable.
- Constructed of durable steel, the slim, lightweight cylinder is easy to grip and maneuver as you work.

Fuel:
PROPANECylinder
14.1 OZ / 400 G

CASE 12 12 UPC/BARCODE 14045251174

ULTRA FLAME PROPANE REFILL 8OZ

FEATURE:

- Clean burning; For plumbing and soldering pipes; use to remove paint; caulk and putty; thaw frozen pipes; For use with all Ultra Flame torch heads

MFR# UF-4949

80004949

CASE 0 12 UPC/BARCODE 622256049499

FLAME SPREADER

FEATURE:

- Magna MT 240C Flame Spreader For Use With All 1/2 inch O.D. Burn tips Stainless Steel Produces a broad flat flame.

CASE 1 6 UPC/BARCODE 70042192803

FLINT SPARK LIGHTER/STRIKER

- The Spark Lighter is designed to ignite manual-start torches and appliances easily and quickly.
- The dependable Spark Lighter is ideal for igniting manual ignition propane and MAP-Pro fueled torches
- This Spark Lighter is designed for quick and easy one-handed operation. The flints are easily replaceable

Ignition:
MANUAL

CASE 0 40 UPC/BARCODE 621457150485

WELDING HELMET - AUTO DARKENING

FEATURE:

- Moulded Polycarbonate Construction
- Auto darkening
- Easy to access exterior shade and sensitivity adjustment knobs
- In full conformity with CE and ANSI
- Quick adjust headband mechanism
- Eye catching design
